TAKE FIVE

Time is On Your Side

Time is one of the great mysteries of the human experience. It has many qualities and dimensions. There is the inexorable, relentless public time of clocks and calendars, schedules and appointments. Then there is private time, the internal time of our thoughts and experiences. This kind of time is unique to each individual and, like a bird, alternates between flight and perching. When we are doing something we love or spending time with someone we care about, the minutes slow down and we experience something akin to God's time, the eternal now. In this dimension there is no pain or suffering, worry or anxiety, no fear of the future or regret for the past—all is well and on time. Spend a few moments in God's time today.

John XXIII: The Pope of Peace

This movie tells the life story of John XXIII from his youth through his young priesthood, episcopacy, life as cardinal, and eventually his life as pope. Elected supposedly as an "interim Pope" who would just keep the status quo and listen to the advisers around him, John XXIII proved to be his own man when he surprised the Church and world by calling for the Second Vatican Council.
